The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on *Materia Medica* who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed *free* to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It *will* cure the affections that lead up to consumption, *if taken in time.*

WIRELESS TELEGRAPHY TO EUROPE.

Declaring that he intended to stay in Glace Bay, N. S., until wireless communication with Europe had been placed on a commercial basis, Guglielmo Marconi said yesterday:

"We have finally overcome all obstacles, and in about three weeks will commence a commercial transatlantic wireless service."

He stated that bad weather would not affect the service, provided the masts and poles used in the wireless system remained undamaged by lightning; that the average speed used in sending messages would be 20 words a minute, and that the rate would be 10 cents a word for ordinary commercial messages and 5 cents a word for press dispatches. This rate, he said, would be cut in two later.

The messages sent from the station at Glace Bay will be received on the other side of the Atlantic at Clifden, Ireland, where a new plant has been established. The Cornwall station will be utilized as a secondary plant.

Connecting with the wireless stations, Mr. Marconi stated the government lines in Great Britain will handle the messages for land transmission, according to contract. On this side of the ocean, he said, the company has a contract with the Canadian government which, he believes, will place the government intercolonial railway wires at its disposal, while the Canadian Pacific and Western union companies both have their lines connected with the Glace Bay station, and Mr. Marconi hopes to do business with them.

For the present the continental Morse code will be used, but if experiments show that the ordinary Morse code is better, it will be adopted. Three operators will be employed at Glace Bay at the outset, and others will be added as necessity arises.

During the next two or three weeks final tests will be made, and then the stations on both sides of the Atlantic will be thrown open to the public for the regular transmission of commercial wireless messages.

"We are sure of success," said Mr. Marconi. "In connection with the beginning of business there will be no formal ceremony.—We shall just have a few friends present. We sent cables to the kings of England and Italy sometime ago, when we first started, and when we begin commercial work we shall do so by sending two or three messages to some of the newspapers."

Had Tetter for Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to be.—D. H. BEACH, Midland City, Ala. Chamberlain's Salve is for sale by W. F. Creighton & Co., and Gibson & Timberman.

A Humane Appeal.

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more live than all other throat and lung remedies put together. Used as a cough and cold cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthisic, stops hemorrhage of the lungs and builds them up. Guaranteed by E. S. Leadbeater & Sons, druggists. 50c and $1.00. Trial bottle free.

SUICIDE FROM STEAMER.

Mrs. Annie Cassidy, of Camden, N. J., a passenger on the American line steamer Westerland, which arrived at Philadelphia yesterday from Liverpool, committed suicide by jumping overboard while the vessel was coming up the Delaware river. The woman, it is said, was heartbroken because she had left her 12-months-old baby in Ireland. Mrs. Cassidy, who was 28 years old, went to Ireland in May to visit her mother.

The grandmother became greatly attached to the infant, and when Cassidy went to Ireland to bring his wife home several weeks ago, the grandmother pleaded to have the baby left with her for a time. Mrs. Cassidy consented, but when she had started across the ocean with her husband she mourned for the child and became morose. The steamer was proceeding up the river yesterday when Mrs. Cassidy asked her husband to go below and get some medicine for her.

Cassidy had scarcely disappeared from the deck when his wife climbed over the rail and jumped into the water. A boat was lowered and the woman was taken from the water unconscious and past resuscitation.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everythere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc.

A weak Stomach, causing dispepsia, a weak Heart with palpitation of intermittent pulse, always means weak Stomach nerves or weak Heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis., will mail sample free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by E S. Leadbeater & Sons.

KILLED BY CYCLONE.

A cyclone, leaving death and destruction of property in its wake, passed over a portion of the Second election district of Cecil county Md., one mile south of Chesapeake City, shortly after 3 o'clock yesterday afternoon. The storm, which came from the south, struck the farm owned by Joshua Clayton, jr., and tenanted by his son, Julius Clayton. The outbuildings, which were mostly new, were wrecked and the carriages in the buildings were also wrecked. Three colored men, who had sought shelter under the shed of the barn, started to run. When the storm was at its height, Thomas Thomas, a colored man, 45 years old, was caught up and hurled with great force against the piers of the barn and instantly killed, his neck being broken. The other men saved themselves by throwing themselves upon the ground.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING. SEPT. 24, 1907.

THE OLD Congressional Globe's motto, "The world is governed too much," has been apparent throughout the ages, and its truth was never more plainly visible than in the injudicious legislation now hampering the operation of some railroads, especially those in the southern country. President Finley, of the Southern Railway, has recently in speeches and correspondence expressed his concern at the outcome of the present crusade. The movement is necessarily causing the discharge of many workmen on entire systems, while the fluctuations of the money market—the truest of all thermometers—are causing natural apprehension among the masses. Apart from the above, the prosperity of the southern country is especially menaced by much of the unwise legislation, the result of the prevailing epidemic against corporations, which is calculated to root up the wheat with the tares. The phenomenal growth of the South during the past two-score years is often alluded to with pride by people living this side of Mason and Dixon's line, and while the forging ahead of this section may justly be regarded as wonderful, the fact remains that the change has been wrought by the enterprise and industry of the southern people and that present conditions are not the result of a freak of fortune. The northern portion of the country, especially the manufacturing centres, have looked upon the New South with alarm; if not envy, while those of the North interested in maritime pursuits realize that Norfolk, Newport News, Wilmington, Savannah, Charleston, Mobile, New Orleans, Galveston and other southern ports are gradually becoming as important as most northern cities of the Atlantic coast. It should not be forgotten that the railroads are the feeders of the cities named. No matter what fault may at times be found with railroads, all must acknowledge that they play a most important part in the prosperity of a country, and while conservative safeguards should be thrown around them, the owners and operators should receive the encouragement which is their due when they do their best for the interest of their patrons. Laws fixing rates for transportation in certain crowded centres would probably work no injustice to the roads, whil such laws, if made general and applicable to other less populous places, would prove ruinous and result in the inability of the management of roads to operate the same save at a loss. All would be glad to see uniformly low rates, but such should be left to the business men at the head of railway systems, and not to legislative bodies which are too often governed by public clamor. In a recent correspondence Mr. Finley made the following practical observations:

The importance of increased and improved transportation facilities to the continuation of progress and prosperity in the Southern States is a matter in which every individual in the South is vitally interested, whatever may be his business or occupation. For some years past the South has been progressing at a rate that has not been equalled by any other section of country. * * * Great as has been the increase in Southern production, the undeveloped natural resources of our sections are still so great as to afford opportunities for almost indefinite increases along all lines, until the South shall become one of wealthiest and most populous section of the United States. * * I am not contending for any special favors for the railways. I ask only that they be recognized as business institutions, upon the ability of which to perform their proper functions the success of other business enterprises must depend, in very large degree. I ask that they be given the same measure of protection under the law that is given to property in every other form. They should be subjected to such governmental regulation as is necessary to protect the buyers of transportation, and the public generally, in all their rights. Legislation of this character, for the prevention of wrong, cannot be too stringent. When it is carried beyond this, and undertakes to regulate the management of a business in which private individuals assume all the risk, there is danger that investors may become alarmed and decline to furnish the capital needed for the increase and improvement of railway facilities.

THE STATE of South Carolina is finally out the liquor business. On the first of last February there was in the warehouse in Columbia about $700,000 worth of liquors belonging to the State. When at that time the legislature determined to abolish the system a commission was created to close up business, and the last has just been sold. So, after 14 years 1 month and 15 days the "Palmetto brand" is known no more. This was the first experiment of "government ownership" in South Carolina, and the fruits have been such that it is likely to be the last for many a year as it should be. Neither municipality nor State is likely to embark upon that sea while memory of the State dispensary lives as a "terrible warning." Advocates of the system promised that the dispensary profits would eliminate State taxes. That, as sensible men predicted, was an unrealized dream. The thing got into politics and stayed there, and there corruption was so appalling that the strenuous efforts of Senator Tilman could not stem the tide of revolt which came none too soon.

EVEN a short trip through the country now will convince almost anyone that the happiest man in the land today is the successful farmer. He sits under his own vine and fig tree, undisturbed by the maddening noise of the great city. Banks fail, railroads go into the hands of receivers, booming towns collapse, all business stagnates, but the farmer can snap his fingers at these things. He is a monarch of all he surveys on his broad acres. And in bringing up his boys and girls to follow in the straight and narrow pathway he gives to the nation its best blood. The farmer is to be envied, and if he is not content with his lot he is lacking wisdom.

ACCORDING to the Chicago Tribune, members of the Chicago branch of the Independence League will go to New York, where they hope to nominate W. R. Hearst as the democratic candidate for President. Should this be done there would be no use in holding an election in 1908, for the men comprising the bone and sinew of the democratic party will certainly not vote for Mr. Hearst.

From Washington

[Correspondende of the Alexandria Gazette.]

The weather bureau announces records of a small earthquake yesterday afternoon, beginning at 4:25 o'clock, and continuing for thirty minutes. Owing to the indefinite time of beginning, it is explained that it is scarcely practicable to estimate the distance but that the quake is assumed to have been of only moderate intensity, and far from Washington. There were several waves of very long period. The strong motion, with an amplitude north and south of nearly four tenths of a millimere occurred three minutes before 5 o'clock. The north and south movement was much less.

Prospects of the American fleet using American coal on its cruise to the Pacific went glimmering today when it was found upon opening bids for furnishing and transporting coal to the fleet at the various station that bidders on Welsh coal were far below bidders on American coal in American vessels.

The body of a white man was found at the south end of the Highway Bridge this morning. It has not yet been identified, and it is not known whether his death was the result of an accident or whether he committed suicide.

An application to Congress for an appropriation of $100,000 to cover inauguration expenses will be presented at the forthcoming term by Commissioner West of the District of Columbia.

Search is being made in the Tidal Basin for the body of a man, who is supposed to have committed suicide this morning. A hat with a note it was found on the shore. It was addressed to Mrs Greenwell, 506 Eighth street southwest, and read: "Good-bye, sister. It's all over. DAVE." It was subsequently ascertained that David Pheifer had drowned himself.

President Roosevelt's probable course of action on the Oklahoma constitution is a subject of discussion in governmental circles. No question as to his approval was raised until word came from republican leaders in the proposed State that the constitution was open to serious objection. Under the law the President has only twenty days for approval after receipt of a certified copy. It is believed here that he will take final action on the matter before he leaves on his western trip, beginning Sunday.

MISSING COUPLE.

Although there was no abatement yesterday in the storm which was sweeping Long Island Sound, and if anything the wind was blowing harder, many rescue parties continued to search for the small sloop Microbe, in which Guido de Angelis, the young civil engineer, and fifteen-year-old Beatrice Benton, of New Rochelle, N. Y., put out for a sail on Saturday afternoon. After spending the whole day searching, the rescue parties returned last night with no tidings for the frantic parents of the young couple. The Microbe had 250 pounds of lead on her keel, and it is now believed that she went to the bottom and carried two young lives with her. The parents of the young woman had recently endeavored to keep her away from de Angelis on account of her youth.

Trains Sank In Mud.

Creston, Ohio, Sept. 24.—A train of a locomotive and four cars, run on the new eleven-mile cut-off of the Baltimore & Ohio Railroad from this town to Sullivan yesterday sank out of sight. Only by jumping did the train crew escape death in the treacherous earth of the Great Fill. At almost the same moment a great stretch of the highway, cutting under the railroad tracks a half mile from where the train disappeared, dropped fifteen feet below the surface of the land. The crust over an underground lake, whose existence has been suspected for years, is supposed to have broken. On the advice of the county engineers Wayne county is to abandon the road.

Body of a Woman Found.

New York, Sept. 24.—Marks on the body of a woman found dead today in the water at the foot of Forty-sixth street, south Brooklyn, make the police think she was murdered and thrown into the lower bay. The corpse was but partly clad, and had evidently been afloat three or four days.

FALSE THEORIES

Lead to Worthless or Harmful Remedies

Stimulating the scalp may allay the itching of the dandruff, but that does not cure the scalp. The disease won't yield to quinine or epsicum nor alcohol, because it is caused by a germ or parasite. To cure dandruff the germ must be destroyed. Until recently there was no hair preparation, or dandruff cure, or hair restorer on the market that would kill that insidious germ that dries up the scalp in little scales called dandruff, and absorbs the vitality of the hair, causing falling hair and finally baldness. Newbro's Herpicide is the only really scientific preparation to cure dandruff, prevent falling hair and baldness. Sold by leading druggists. Receivers Appointed.

New York, Sept. 24.—The first steps to wind up the affairs of the street railway corporations of this city and place them on a paying basis came today when the promised application for a receiver for the New York City Railway Company was made to Justice Lacombe in his chambers. The petitioners are the Penn. Steel Company and the Dragon Contracting Company. Marquand, Byrne and Cutcheon made the application for the complainants and D. E. Lancey Nicholl, Paul Cravath, James L. Quackenbush and A. A. Gardner representing the company admitted the allegations made in this complaint and joins in the application for the appointment of a receiver. Judge Lacombe appointed Adrian H. Joline and Douglass Robinson as receivers and fixed their bonds at $250,000 each.

Fear a Tidal Wave.

New York, Sept. 24.—Implicitly accepting as true the recent prediction of an amateur weather prophet that New York will be swept by a tidal wave on the night of September 24, the lower east side is in a panic today which is causing the police considerable inconvenience. Many families have hustled their household effects to the roofs in the hope of getting them above the water's reach; others are temporarily quitting the city and a few even tried to drag small boats through the streets to places where they would be conveniently at hand in the event of the expected inundation. The prophecy, originally published in a monthly magazine, was copied by several Italian and Hebrew papers. The past few days' heavy rains increased the feeling of alarm until thousands of the tenement dwellers are on the verge of a panic.

A. M. Brady on the Stand.

New York, Sept. 24.—Anthony M. Brady, multi-millionaire gas and traction expert, developed a surprising lack of memory when he took the stand today in the hearing of the government's action designed to secure the dissolution of the Standard Oil Company of New Jersey. Brady was a partner of Commodore E. C. Benedict in the transactions which led up to the sale of the Manhattan Oil Company to the Standard only after it had shown the big monopoly that it was a dangerous competitor. Brady swore that he couldn't remember when he organized the Manhattan Oil Company, although the concern had a capital stock of $2,000,000. He proved a decidedly tough witness for Kellogg to handle and it became necessary to produce the incorporation papers before he displayed any knowledge whatsoever.

Costly Violins Stolen.

New York, Sept. 24.—Half crazed rather by grief at the loss of the instruments which he loved better than any consideration of their money value, Louis Kapp, a musician, of 127 west 12th street, reported to the police early today a theft from his home of a Stradivarius violin, worth $10,000, and an Amati, worth about $2,000. Kapp's story is that he bought the Stradivarius in Paris about six years ago and the Amati in the same city two years later. The two violins were among the finest in the country and have been admired by many musicians. Kapp is an instructor of violin technique and well known in the city. He left his home to keep an appointment last evening, did not return until late and when he arrived found both violins and three bows worth about $100 missing.

Explosion on Gasoline Yacht.

The interior of the railroad station where the meeting was being held was demolished.

Investigating Graft.

Chicago, Sept. 24.—Members of the Chicago police department and Cook county deputy sheriffs are vieing with each other in a "graft" contest. Disclosures up to date award even honors. "Haunted" Telephone Exchange.

Wellesley, Mass., Sept. 24.—Unable to keep a night operator at its "haunted" exchange here, the New England Telephone Company has erected a new building guaranteed ghost proof. Chicago and Alton Immune.

Chicago, Sept. 24.—The Chicago and Alton Railroad has been granted immunity from prosecution. Federal Judge K. M. Landis entered an order to this effect, shortly after 11 o'clock this morning. A moment later he ordered that Jas. Moffoot, President of the Standard Oil Company of Indiana, should appear before the federal grand jury and testify concerning figures he published in a paper charging that many big shippers have done the very thing for which the Standard was fined. This action is in return for the Chicago and Alton turning State's evidence against the Standard Company, which has been approved by Attorney General Bonaparte.

Mother Warned in a Dream.

New York, Sept. 24.—Warned in a dream that her 18-year-old daughter, Minnie, was trying to kill herself, Mrs. Minnie Hanley was just in time to save the young woman early today from death at her own hand. Leaping from her bed in terror, Mrs. Hanley found her daughter, after a frantic search, locked in a bathroom with the gas turned on and already unconscious. She is now in Bellevue Hospital in a serious condiction. Her sweetheart's departure for a climate which he hopes will save him from a consumptive's death prompted the girl to seek her own life.

Mother Kills Her Three Children.

Buffalo, N. Y., Sept. 24.—One of the most startling tragedies in the history of Buffalo occurred today when Bertha Mund, 37 years old murdered her three children. The police found the children dead in bed. There was a rope around the neck of the baby. To strangle the other children the mother had used part of the bed clothing. It is believed the woman is insane.

New York Stock Market.

New York, Sept. 24.—The early stock market followed the London lead for a little while, some declines being made, but before many minutes had passed general strength was developed, and at the end of the first hour many stocks showed material advances over yesterday's closing figures. Railroad and other bonds steady.

STEAMBOAT RATES.

The rate war, which is already warmly waging between the new Washington, Jamestown and Norfolk Steamship Company and the Richmond and Norfolk Steamship Co., on one side, and the Old Dominion, the Virginia Navigation Company and the Norfolk and Washington Steamboat Company on the other, is growing in bitterness day by day.

Because the new company advertised the old as a "monopoly" several spirited clashes have occurred recently between representatives of the competing transportation lines.

The new lines, which are operated by a company, of which William J. Payne, the trolley magnate, is the head, opened the war by cutting the rates between Richmond and Norfolk and between Norfolk and Washington.

At the beginning of the struggle, when the new company began business, the rate between Norfolk and Washington was $2.50 on the day line and $5 on the night line. The rate between Richmond and Norfolk was $2.50.

These figures have been slashed to about one-half, the rate for the round trip between Richmond and Washington being cut to $4 by the new company.

The struggle between the competing companies reached a climax recently when the Washington, Jamestown and Norfolk Steamship line adoped an extraordinary method of cutting into the business of the Norfolk and Washington Company. Probably 60 per cent. of the travel to the Jamestown Exposition from other parts of the country is by way of Washington. By a traffic arrangement with the different railroads the Jamestown tourists were booked from Washington to Norfolk over the Norfolk and Washington line. The new company advertised that it would accept the tickets issued by any of the railroads and as the result a great stream of passenger traffic was diverted from the Norfolk and Washington line. Agents of the railroad and steamship companies protested in vain against the unusual tactics. The new line officers were assured by the railroad men that they would never receive a penny from the roads that issued the tickets.

The new line officers replied that they would take chances; that, in any event, the advertisement was worth something.

The new company has one steamer, the Queen Anne, now running between Richmond and Norfolk, and one boat, the Montauk, plying between Norfolk, the Jamestown Exposition and Washington. Two other steamers, in course of building, will be added, making a fleet of four.

The rate war reached fever heat recently when J. Bernard Clinedinst was made general passenger agent of the new lines. Mr. Clinedinst inaugurated an aggressive campaign, which has stirred things to a hectic aspect. The agents of the competing companies are now at it, hammer and tongs.

It is believed that the old companies are preparing to spring a new rate and in other ways meet the situation precipitated by the opposition.—[Richmond News Leader.

YOUTHFUL DYNAMITER.

Frank Adams, 19 years old, who alleges he was compelled to join a Black Hand Society at Walston, a mining town near Punxsutawney, Pa., was arrested early Sunday while attempting to blow up the home of Salvatore Spanelli. Adams had placed a can, containing sufficient dynamite to blow up a block of houses, under the Spanelli home. While making the arrest the State police were fired upon by persons believed to be members of the same society. Adams is said to have made a complete confession implicating many persons and alleges he was threatened with death unless he made the attempt. Had the explosion occurred 17 persons doubtless would have been killed. The foreigners attempted to lynch Adams when they learned the situation.

Ex-Senator Chandler's resignation from the Spanish Treaty Claims Commission is taken to be a final break with the administration.

SHOT BY DETECTIVE.

Reece Georgian, twenty-three years old, whose home is in Del Ray, Alexandria county, was shot through the right hand about 6 o'clock yesterday evening by Detective Cannaday, of the Washington Southern Railway. The affair occurred near Georgian's home, and, it is alleged, followed an attempt on Georgian's part to escape from officers, who had arrested him on suspicion of robbing freight cars in the Potomac yard. Georgian was brought to the Alexandria Hospital where he was attended by Dr. William M. Smith. It was found that the bullet which was fired at close range from a large pistol, had passed through the hand near the thumb, making a serious wound. Constable Pennypacker and Detective Cannaday took Georgian into custody yesterday afternoon with the intention of bringing him to the jail in this city for safekeeping until today, when he was to have been given a hearing before Justice Isaac C. Burrell, in Jefferson district. It is asserted that the defendant asked to be allowed to visit his home before being imprisoned, and that after he was permitted to do so he made an effort to get away. He was being pursued by the officers when the detective fired upon him.

WEDDING IN NORFOLK.

Miss Eleanor Selden Tucker, daughter of Bishop and Mrs. B. D. Tucker, was married in Norfolk today to Mr. George Winthrop Lee, of Boston. White. The bride was given away by her brother, Mr. John Randolph Tucker, and Miss Lelia Tucker was her maid of honor. The best man was Mr. George Clark, of Boston. Immediately following the ceremony their was a small reception given by Mr. and Mrs. St. George Tucker, at there residence, on Freemason street, to the wedding party and the out-of-town guests. Among those present were: Mrs. Arthur Lloyd and Miss Rebecca Lloyd, of Orange, N. J.; Miss Margaret Tucker, of Richmond; Mr. John Lloyd, of Lynchburg; Mrs. Eleanor Howard, of Alexandria; Mr. Richard Washington, of Alexandria; and Miss Peachy Washington, of Charlestown, W. Va.

SUIT FOR DAMAGES.

Justice Clabaugh in Washington yesterday cited the Norfolk and Washington Steamboat Company to show cause Friday why they should not be restrained from declining to accept Samuel Wasserman, a hotel solicitor, as a passenger. It is alleged in the petition filed by the complainant that on September 4 he purchased a first class ticket for passage to Norfolk, but that he was denied carriage on the ground that he was a solicitor, and not, however, because of anything against his character. The object, the complainant states, was to discriminate against him and others for the purpose of permitting a Mr. Sweet to solicit business. An affidavit was filed by Frederick G. Gardner, supporting the allegations of the bill and stating that he was accorded the same treatment at Norfolk and at Washington. Attorney John Drew, who filed the declaration, states that a like action will be filed in law to recover damages.

A youth named Raymond Deavers was knocked from a bicycle near the intersection of King and Royal streets about noon today by a wagon in charge of L. E. Payne, of Fairfax county. The boy escaped serious injury, but his wheel was crushed by the wagon. Officer Roberts, who was in charge of the station house at the time, went in search of Payne, who had started west on King street, and the officer, in a wagon, overtook him at Columbus street. Payne was conducted to the station house. The latter signified his willingness to pay for the bicycle, and this will probably end the matter.

"HAPPY JACK" REAPPEARS.

Among the prisoners in the Police Court this morning was A. J. Morris, better known as "Happy Jack," who has from time to time been a patron of the Police Court during the past twelve or fifteen years. He has spent much of his time on chain gangs or in work houses for misdemeanors. Morris, it is said, has recently been liberated from the Washington work house. He came here yesterday and removed a door mat from a residence and was endeavoring to sell it when Officer Beach took him in charge. The owner of the mat later appeared and identified it. Justice Caton sent Morris to the chain gang for 30 days.

YESTERDAY'S RAIN.

The aftermath of yesterday's rain was in evidence last night and today. Most of the sewers became clogged and street workmen have been kept busy in opening them. So far as can be seen, however, no material damage has resulted, although in many places, especially in the northern and western sections of the city, cellars and basements were flooded. The river bore a yellow hue this morning by reason of the mud washed into it by the heavy rains, while the tide was abnormally high. The weather has been fair today with a brisk breeze.

WILL TELL OF AFRICA.

Wednesday evening at 8 o'clock Rev. J. E. Phipps, one of the most successful of the colored missionaries laboring on the Congo, will speak at the Second Presbyterian Church. During his stay in the dark continent Rev. Phipps has passed through many thrilling experiences. While teaching his people the principles of his religion he has not neglected to train them in practical things. When the great cyclone of several years ago had demolished their church he and his helpers built another and better one where many hundreds of natives have confessed Christ. They have been taught to raise crops, to make articles of furniture and to live as any other Christian community would live. This is the field to which our townsman, Mr. Henry Slaymaker, was going when his boat capsized on the Congo river and he was drowned. All are cordially invited. A free will offering for missions will be taken up. The gallery will be reserved for colored people, many of whom will doubtless wish to hear Rev. Phipps.

CHURCH FOR SALE.

As will be seen by an advertisement elsewhere in the Gazette the Shiloh Baptist Church, colored, situated at the northwest corner of Duke and West streets, is offered for sale under a deed of trust executed to the Mechanics' Building Association No. 5, default having been made in the provisions of the deed. The church was built about fifteen years ago by the late W. F. Vincent, contractor, at a cost of upwards of $10,000 and after paying what money the congregation had raised a deed of trust was put upon the building. All but about $3,000 of the original loan has been paid but as the building association is now winding up its affairs and default has been made in the last payment the church will be offered for sale on October 19th next. The church has a large congregation with Rev. Henry H. Warring as pastor.

MRS. BOYER CHANGES HER MIND

Judge Ingram, of the Law and Equity Court of Richmond had a novel case before him yesterday afternoon, when Mrs. Josephine A. Boyer presented an application to the Court asking that the divorce issued to her on September 14 be revoked. Mrs. Boyer obtained her divorce from Earnest R. Boyer on grounds of cruelty. There was a reconciliation between the Boyers several days ago, at which time they decided to live together again. Judge Ingram revoked the decree. It will not be necessary for the couple to remarry. Mr. and Mrs. Boyer formerly resided in this city.

UNDERGROUND SYSTEM.

The Washington, Alexandria and Mount Vernon railway is preparing to comply with the requirement of the District of Columbia, and to substitute the underground electric system for the overhead wires on that portion of its track between the south end of the new bridge over the tidal basin, and the north end of the Highway bridge. The work, it is said, will be completed and the tracks will be in use before December 1, the limit allowed the railway company for making the change.

ANOTHER RACE.

Arrangements are being made for another race between the motor boats owned by Messrs. R. Bruce Emerson and Wm. E. Moore. The course will be from a stake boat off Prince street dock around a buoy near Marshall Hall and back—a distance of about twenty miles. The winner will receive a purse of $100. Efforts are being made to run the boats next Saturday. The race, however, may not come off until that day week.

DEMOCRATIC COMMITTEE.

The newly elected city democratic committee will meet tonight at 8 o'clock at the parlors of the Opera House Cafe, to reorganize and to elect a chairman and secretary and make arrangements for the coming congressional and legislative election in November.

MAGISTRATE APPOINTED.

Judge Thornton has appointed Mr. A. J. Payne a magistrate for Mount Vernon district, Fairfax county, in place of the late J. O. Kirby. Mr. Payne who has been a constable in that district for some years has resigned to accept the position of magistrate.

Lost and Found.

Lost, between 9:30 p. m., yesterday and noon today, a bilious attack, with nausea and sick headache. This loss was occasioned by finding at E. S. Leadbeater & Son's drug store a box of Dr. King's New Life Pills. Guaranteed for billiousness, malaria and jaundice. 25c.

REMAINS TO BE INTERRED.

Miss Ella Kirwin, of Jackson, Tenn., who was to have been married to John W. Turner, the young electric railway lineman killed by a fall from a tower near Spring Park, July 17 last, arrived here yesterday, and made arrangements for the burial of the remains in St. Mary's Cemetery to-morrow morning. The body was placed in a receiving vault in St. Mary's Cemetery where it remained until Mr. Percy Clift, assistant superintendent of the electric railway company, succeeded in communicating with Miss Kirwin.

INSPECTION.

The annual inspection of Company G, 70th Virginia Regiment (Alexandria Light Infantry) will be held tonight at Armory Hall, to be conducted by Col. Jo Lane Stern, assistant inspector general of the Virginia State militia. About fifty-five men will be in line, under command of Capt. P. J. Murphy, First Lieut. W. W. Demaine and Second Lieut. R. C. Talbott. Maj. James E. King and his staff officers will also be inspected.

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most staple medicines in use and has an enormous sale. It is pleasant and safe to take and is undoubtedly the best in the market for the purposes for which it is intended. Sold by W. F. Creighton & Co. and Gibson & Timberman.

The Awful Carib Fish.

A traveler in Venezuela gives an interesting description of the fish of the Orinoco country. He says the party several times came in contact with the carib fish, which are the most ferocious inhabitants of the water known. The fish are not over fourteen inches long, but they travel in schools. Their teeth are three cornered. Any living object which attracts their attention is attacked with fury. Mr. Thompson tells of an Indian woman who entered the water to fill a bucket. She was attacked by the fish and reached shore only to die in fifteen minutes. The flesh was literally torn from her body. Mr. Dart, who was with Mr. Thompson, caught one of the fish and pulled it upon the bank. He held the carib under his foot while he pointed at the peculiar teeth with his finger. With a quick movement the carib flopped out from under Mr. Dart's foot and seized him by the finger, cutting that member to the bone. The fish frequently have been known to bite ordinary fishhooks in two.

Progress of Dentistry.

Though dentistry became a science under the hand of Professor Richard Owen as late as 1839, there are evidences that it was practiced in a crude way by the ancients. Herodotus refers to treatment of the teeth by the Egyptians, and evidences of attempts to supply artificial teeth have been discovered in ancient skulls and mummies. Galen was the first physician to speak of treatment of troublesome teeth, and Ambroise Pare, in his work on surgery in 1550, makes mention of the preservation of the teeth. It is only since the middle of the last century, however, that dentistry has become a branch of surgical science. Before that time bad teeth were extracted, and mere tooth drawing constituted dentistry early in the nineteenth century. The first dental school in the United States was erected at Baltimore in 1839. In 1845 Cincinnati boasted of a similar institution, and in 1856 a dental school was erected at Philadelphia.

A Gentleman of the Old School.

Lady Dorothy Nevill in her reminiscences tells a story of her father, a gentleman of the old school, "in nankeen shorts, with white stockings and a brass buttoned blue coat, with big collar, over a beautifully embroidered waistcoat." But he swore, after the manner of the age. "He was traveling at night on the continent alone in a post chaise when the postboy, while passing through a forest, began to drive like a man anything but certain of his way. My father's wrath soon rose, and the explosion of strong language which issued from the carriage so alarmed the driver that, murmuring, 'Je ne veux pas conduire le diable' (I will not drive the devil), he pulled up and, having expeditiously unfastened the traces, made off with his horses at a gallop. My father, I believe, passed the whole night alone in the woods."

Colonial Fear of Lawyers.

In the columns of the New York Gazetteer of Sept. 8, 1786, there was a paragraph lamenting the increase of lawyers as threatening to the future prosperity of the community and degrading to freemen. "An honest trade in former days," said the writer, "was all that people of common ability and education were ambitious of, but now no profession is genteel but the lawyer and the merchant. The lawyers are now creeping into every post of importance and thrusting themselves wherever there is a vacancy. Our congress, our assembly, are crowded with them, and even in our great commercial convention there are five lawyers to one merchant."

Curing the Bad Boy.

You remember the old fashioned woman who when she heard her young son swearing or using naughty words washed his mouth in soapsuds. There is an Atchison boy who could not be reformed in this way, so his father took him in hand. Every day his father called him in and said: "Now, your mother objects to those naughty words you use, but I, being a man, like them. Go over the list for me." The boy promptly complied at first, but in a few days he tired of the words and has now given up his list entirely.—Atchison Globe.

Health in the Canal Zone.

The high wages paid makes it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, billiousness, weakness and all stomach, liver and kidney troubles. Guaranteed at E. S. Leadbeater & Son's drug store. 50c.

Attack of Diarrhoea Cured by One Dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

I was so week from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G.
